February, 2017

Next Meeting: Feb. 21, 7:00 PM

Karp Room, San Leandro Library

Dahlia Fanatics,

For those that missed the conference in Monterey, it was a fun time. Great raffle prizes, food and talks. You will receive the important information at the meeting. A big thank you to Leslie Servin for volunteering to be the Conference Membership Chair.

Be checking those dahlia tubers right now. With the drought quickly leaving, I would hope that our tuber sale in April will be very successful. Yes, you can water a dahlia plant. Some of us have started our cuttings and hope to have an ample supply by tuber sale time.

How has your garden faired with all the rain? We have had 6-7 thirty foot trees fall and plug up a gutter just before a storm. They were not ours and they were removed before the storm but we could have had a big wet yard if they hadn't been moved. From years past here are some prediction's of our gardens. We will have more weeds than we have had in the past. Some weeds do the hibernation thing and really don't grow unless there is extreme heat, such as from a fire, cold such as a snowy time or extreme wet. Keep an eye out for more weeds than normal. Snails and slugs will come out starving. Snails can hibernate for as much as three years and with less than the normal amount of vegetation the past few years, I would expect them to be racing to our tender dahlia plants. Plan to protect your tender plants before you put them in the ground. What other things can you think of that the excess water might change our gardening lives?

Beverly will have some prizes for those that turned their dues money in on time or early. You will be pleased!

Pres. John.

**Refreshments will be provided by:
Baker and Beverly**

Next month: JoAnna and Chris Dix

Program:

News from the Dahlia Conference

Several of our members attended the Dahlia Conference in Santa Cruz over the last week-end.

We enjoyed the camaraderie of our dahlia friends, enjoyed some great food, won lots of raffle prizes and were also updated on all the latest developments about dahlias from the perspective of ADS.

We were also lucky to have great weather (the first really sunny day in a long time)

and

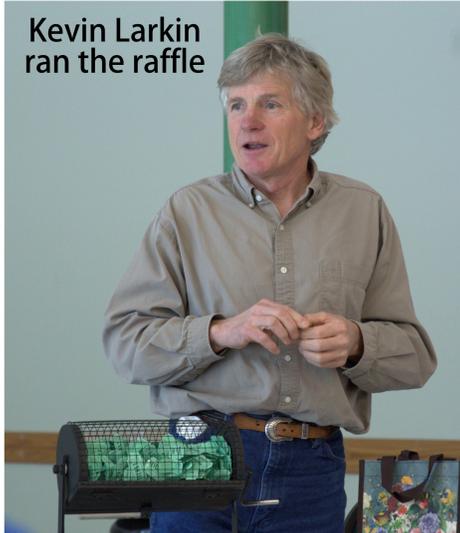

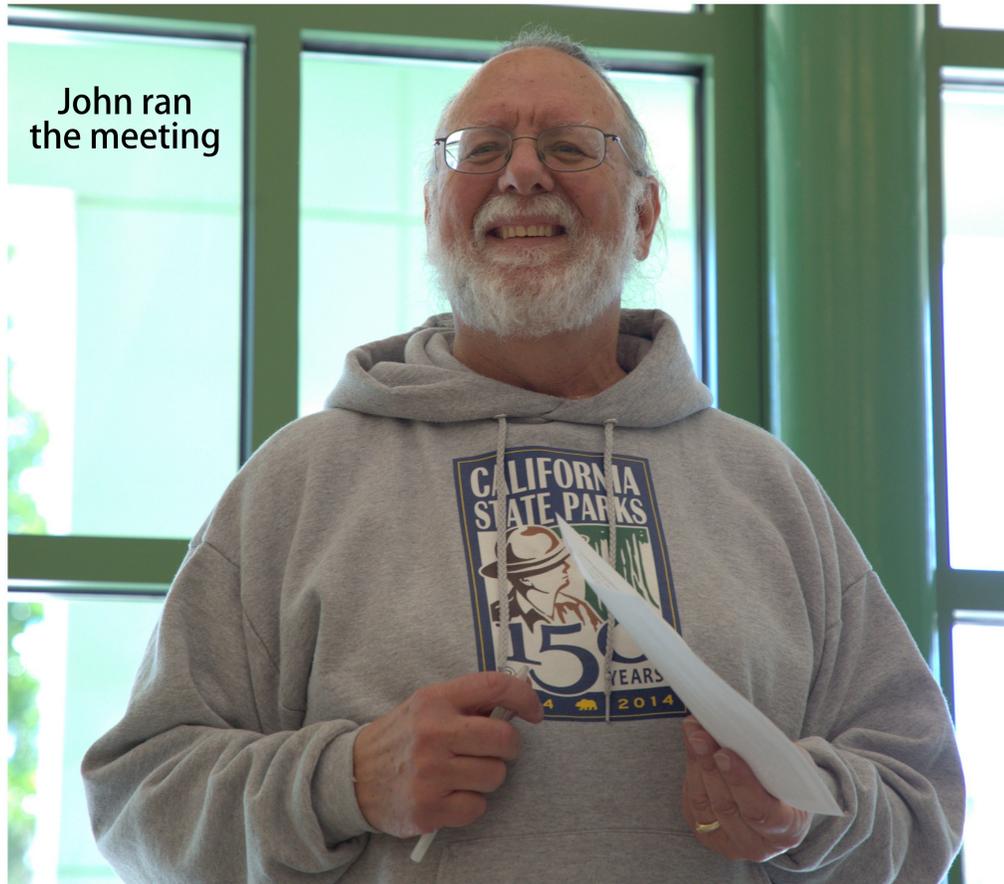

What to do with seedlings

and seeds?

Photos from the Dahlia Conference

John ran the meeting

Kevin Larkin ran the raffle

There were lots of raffle prizes (and great food, too!)

Everyone got some dahlias

Lou Paradise updated us on the latest dahlia news
