**Next Meeting: November 20th, 7:00 PM**  
**Karp Room, San Leandro Library**

Dahlia folks,

Can it really be the last meeting of the year? How time has flown this year.

I believe we will be talking about dividing and winter storage of tubers. It will be good for the long time growers to be at the meeting to tell what tricks they have. Do you use bleach or a fungicide? Do you dip or spray? In what medium do you overwinter your tubers. Do you even dig your plants up now but wait until spring? All very interesting stuff. I would advise that you wait until all the smoke is out of the air.

Beverly has a note in the newsletter about the society dues as well as the ADS dues. The ADS dues we want to get out before the end of the year.

Looking at the yard now, it is hard to imagine that two months ago we had show quality blooms and the neighbors were raving at how beautiful our plants were. If yours are like mine, the plants are quickly dying back and look like they have died forever.

Yet, we know how they will be back doing even better than they were this year. We will have a Best in Show. Our seedling will win a medal. One of your best seedlings is green and the other is blue. Yep, this is the time of year to start dreaming about next year and what to do to prepare for the best year ever.

2019 is the Year of the Dahlia. More will come up about this early next year.

The best of the holidays to all if we don't see you,

John
